

Communications Installation Technician

Job Title: Communications Installation Technician

Job Location: All WV, PA, and OH Locations

Position Type: Full Time – Mid-Level

Company Overview:

Staley Communication specializes in the design, integration, and maintenance of voice and data communications systems for a diverse customer base; primary verticals are public safety, transportation, utilities, mining, and manufacturing. Technologies covered include: Land Mobile Radio (LMR), microwave communications, networking – local and wide area, E911 telephone networks, mobile data systems, wireless surveillance solutions, and SCADA systems. Staley Communications provides competitive compensation and benefit packages.

Job Description:

Staley Communication, Inc. is seeking mechanically inclined individuals to perform installation and maintenance on a variety of wireless voice, video, and data communication equipment.

Primary Responsibilities:

- Removal and installation of mobile communication equipment, mobile data terminals, emergency lighting, vehicle camera equipment, security screens, vehicle consoles, and vehicle tracking devices.
- Disassemble and reassemble trim, seats, lights, headliners, and carpet in motor vehicles, heavy equipment and or any other type equipment in order to properly route wiring and install equipment.
- Install antenna systems, route antenna, data, and power cabling, and apply a variety of electrical connectors.
- Review job requirements and determine optimal equipment placement and installation limitations.

Requirements:

- Ability to use basic tools and test equipment including: hand tools, power drills, multi-meters, watt-meters, and soldering equipment.
- Must physically be able to maneuver into and out of heavy equipment and work on ladders and other elevated locations.
- Understanding of basic wiring diagrams and basic DC circuit theory is required.
- Basic computer skills and proficiency in Microsoft Excel, Word and Outlook is desired.
- Must be able to work under pressure and independently, and be able to meet deadlines for delivering quality solutions on time.
